## 2022 Global Change Youth Research Project Description

<table>
<thead>
<tr>
<th><strong>Project title:</strong></th>
<th>Evaluation of Brain Pilot: A digital training platform to improve young people's mental health literacy and resilience</th>
</tr>
</thead>
</table>
| **Project duration, hours of engagement & delivery mode** | 20-36 hours a week for 4 weeks in the Winter Vacation period Equivalent of one day a week during Semester 2 2022  
*COVID-19 considerations: The student can be completed under a hybrid working arrangement, but on-site attendance is preferred.* |
| **Description:** | The Brain Pilot is a peer-to-peer digital training platform developed by ALLKND that aims to improve mental health literacy and resilience among year 10-12 students, i.e., 16 years of age and older.  
This project aims to evaluate the effectiveness of this program using multi-faceted approach by designing data collection mechanisms using quantitative and qualitative methodologies. |
| **Expected outcomes and deliverables:** | The scholar will have an opportunity to co-design this evaluation with ALLKND and other stakeholders involved in this program.  
The scholar will also gain experience applying for ethics clearance for research that involves a high-risk population group, i.e., young people.  
The scholar will also have an opportunity to co-author the evaluation protocol which will be submitted in a peer-review journal. |
| **Suitable for:** | Students who have completed a course on basic research methods and are interested in mixed-methods research  
Students with psychology, nursing, public health, allied health, or social background. |
| **Primary Supervisor:** | Dr Joemer Maravilla  
Institute for Social Science Research |
| **Further info:** | Please contact [Dr Maravilla](mailto:Dr.Maravilla) for further details. |
